Economics, Entrepreneurship with Data Science student building AI agents that automate real business workflows (Claude Code / Claude API, Python, Supabase).

EDUCATION

Reichman University | Herzliya, Israel — Oct 2025 – Expected July 2028

B.A. in Economics & Entrepreneurship with Data Science

- **Negotiation Club:** Lectures with leading figures of the Israeli business world and hands-on negotiation exercises in class.
- **Course project – Hospital Triage Optimization:** Achieved 91% triage accuracy on a patient-prioritization challenge by engineering a Python ML pipeline (Pandas, K-Means, PCA).
- **Course project – ZGYM (Automated Micro-Gym):** Validated a modular campus-gym venture for an underserved student market by leading market research, pain-point discovery, financial modeling and an implementation roadmap.

PROFESSIONAL EXPERIENCE

Founder | FinZaitz (Digital Presence & AI Tools for SMBs) — 2026 – Present | Israel

- Built online presence for local businesses with no digital channel: ran the full sales cycle and designed premium websites and interactive menus.
- Launched a multi-seller order & inventory platform for a distributor (Supabase, GitHub, Vercel, per-rep auth).
- Automated clients' marketing and booking with an AI content pipeline (sub-agent review) and a 24/7 LLM-driven WhatsApp bot (Claude API tool use, Google Calendar API, Supabase).
- Built an AI study assistant that syncs Moodle, transcribes lectures locally and uses the Claude API to generate summaries and Q&A.

AI Automation Intern (Phase 2) | BBZ (Condominium Management) — July – Aug 2026 | São Paulo, Brazil

- Cut budget-forecast time from ~2h to ~20 min for the engineer's manual review of 90-page scanned conventions by building a Claude Code agent: OCR, source-cited Excel, 10 validators, Python engine.
- Eliminated a manual 10-day monthly cycle reconciling ~200 contracts by building an agent that collects invoices, cross-checks amounts between systems and updates records overnight, with an emailed report.

Marketing & Sales Manager | CYCPLUS Israel — Apr 2024 - Nov 2025 | Israel

- Expanded B2B presence from 10 to 40 stores in a new market for the brand by owning the end-to-end sales cycle – from prospecting to in-store sell-through.
- Generated 10,000+ NIS in new monthly revenue by revitalizing the sales pipeline with tailored value propositions.
- Strengthened customer retention by handling 200 weekly calls, including prospect calls to new stores and new customers, and representing the brand at national events (Epic Israel).

Multidisciplinary Intern (Phase 1) | BBZ (Condominium Management) — July 2025 – Aug 2025 | Brazil

- Opened new condominium prospects for BBZ's growth push by pitching its services directly to building managers.
- Cut contract processing time by 66% (1h to 20 min) on manual scanned-contract reviews by building an OCR pipeline triggered from Google Drive and orchestrated in n8n.

Lead Madrich (Instructor) | Mechina Melach Ha'aretz — July 2024 – July 2025 | Israel

- Prepared youth for extreme operational demands by delivering lectures, designing physical regimens and coordinating programs across Mechinot.

Data Analyst | Venomvizion — Jan 2022 – March 2022 | Israel

- Optimized data-processing workflows by applying Python statistical modeling and SQL (joins, data cleaning) to medical data.

MILITARY SERVICE

Combat Soldier (Machine Gunner) | Paratroopers, Battalion 202 — May 2022 – Feb 2024 | Israel

- Enlisted through Mahal – Lone Soldier Overseas Volunteers Program (מח"ל - מתנדבי חוץ לארץ).
- Executed operational missions under pressure in Lebanon, Gaza and the West Bank; high-stakes teamwork.
- Continued reserve duty (Miluim) with the Paratroopers.

SKILLS

- **Technical:** Claude Code & Claude API (agents/sub-agents, web pages built with AI), Python (data science), SQL, Supabase, GitHub, Vercel, n8n, Excel, R
- **Professional:** End-to-End Sales, B2B/B2C Sales, Digital Marketing, Process Automation, Business Planning, Forecasting
- **Languages:** Portuguese (Native), Hebrew (Native), English (Advanced), Spanish (Intermediate)
